Wavelet Management Suite

An essential retail business application suites
towards running a business with ease,
convenience, visibility and control.....

Empower real time visibility into your business for better decision-making and growing your business with total control.

Wavelet MS is the financial application that supports all back-office and business processes across the entire company. Wavelet MS includes financial accounting, financial management, supply chain, inventory management, order management, shipping and fulfillment, employee management, customer loyalty program, point of sales, warranty, logistics, business intelligence, e-commerce and more.

1) Reduce Your Total Cost of Ownership

Businesses running on Wavelet MS reports more than 50% cost savings as compared to running their old on-premise systems. Wavelet MS eliminates costly upgrades, expensive infrastructure and onerous maintenance.

2) Optimized Cash flow and Inventory

With your front and back office processes integrated on a real time basis, processes from order to delivery and subsequently collection could be accelerated. It helps you to save costs, improve speed and optimize inventory holding.

3) Eliminate the need for Data Synchronization

Many businesses suffer due to problems having the latest data synchronized correctly while some face challenges of latency.

4) A Real-Time, Comprehensive View of Your Business

With our matrix-reporting format, you get a complete summary and detailed view of finance, sales, inventory, orders and other vital statistics at your fingertips.

5) Supports Your Distributed Organization

With Wavelet MS, you get anytime, anywhere secure browser-based access, so your employees can work the way they want to, using a PC, Mac, iPad, iPhone or Android.

6) Multi-company, multi-branch in a single database
Cross company business processes at a breeze, consolidated account receivable for optimal credit exposure, cost allocation to the branches for better analysis.

7) Cloud Based Software as a Service (SAAS)

Wavelet MS runs on MAXIS Cloud for better scalability, reliability and stability. Businesses could reduce cost with our licensing model base on the number of branches and the cloud server specifications (unlimited user licenses). There's no upfront CAPEX, you get to enjoy computing on demand and you can get things up and running faster.

8) GST Ready

Our system has been tested and certified by Royale Customs Malaysia, and graded A (Advanced) during the certification process. This also means that you need not worry on investing on a software that may not be compliant when you need the advanced features and functions like mixed supplies, input tax recoverable ratio, annual adjustment, TX-RE tax code etc.

With over 12,000 users as of 2011 in Malaysia, Singapore, China, Hong Kong, Brunei and Vietnam, Wavelet MS has gained significant recognition over the last 8 years. With Wavelet MS, some of our customers have grown multiple fold within a couple of years, while others have established branches in overseas market.

Some of our customers :
